Technology Management Resources: Keeping Their Customers "Coming Back For More" New "Old" Customer: Bankers Trust Company N.A.

Orlando, FL – September 20, 2006 – Technology Management Resources (TMR) today announced its newest "old" customer – Bankers Trust Company N.A. of Des Moines, IA. Bankers Trust Company has purchased TMR's *CITATION™ e-Remit* lockbox solution along with two of the company's newest products: *CITATION™ i-View* (internet based information query and delivery) and *CITATION™ e-Scan* (full page transaction document capture).

Bankers Trust is the newest "old" customer due to the fact that the bank's evaluation co-coordinator and Lockbox Operations Manager Linda Cowger is a former *CITATION™* user having managed a *CITATION™* based lockbox operation at another bank for many years.

According to Linda, "My previous experience with the TMR staff and products made them the obvious choice."

Previously, Bankers Trust Company had outsourced to a third party lockbox processor. When the provider they were using decided to close shop, Linda knew just who to call. She contacted Norman Picard, TMR Sales Analyst and told him "It's time for Bankers Trust Company to make a change!" Ultimately it made sense for the bank to bring this service in-house, eliminate the potential risk and leverage the *CITATION™* investment to go after new customers with all types of remittance transactions.

TMR President, Tim Clifford stated "There is no greater compliment to a company than to have a former customer return to purchase again. Linda was an early *CITATION™* user and was instrumental in making the product what it is today. We missed her for a few years but now look forward to helping her grow the business for Bankers Trust Company."

An early October '06 implementation is planned.

About TMR:

Technology Management Resources offers a wide range of automated payments processing solutions to financial institutions and businesses nationwide. Headquartered in Orlando, FL, TMR has 17 years of dedicated service to the payments industry. TMR's products include: *CITATION™ e-Remit* – image based lockbox, *CITATION™ e>Returns* – automated returns (NSF) re-presentation, *CITATION™ e-Scan* – full page image capture, *CITATION™ i-View* – Web based transaction document image and data delivery, and *CITATION™ i-Deposit* – remote merchant deposit. Each product is delivered in combination with TMR's comprehensive customer support.
