Technology Management Resources (TMR) and Public Bank: Neighbors and Lockbox Partners

January 25, 2007 - TMR would like to announce its newest and "closest" lockbox customer: Public Bank based in Kissimmee, Florida. With eight Central Florida locations and more than \$425 million in assets, Public Bank has one office within walking distance of TMR's headquarters.

According to Vice President Michael Williams, "The decision was made easier due to our affiliation with Alabama National Bancorp. Several other banks in the organization do business with TMR and have had great success with the CITATION™ products. Being in TMR's backyard will make it better!"

In announcing the relationship, TMR Business Builder™ Manager Randy Ezell stated, "We are looking forward to assisting the bank with sales efforts in a market we are very familiar with – our own!" The strategy includes targeting municipalities, property management and utilities.

TMR installed the system shortly before the end of the year following a two day training class attended by Michael Williams and two of his staff members. The experience was best summed up in a written evaluation Williams sent to TMR:

"I often look for areas of opportunity, as we are both in a service environment, and we only grow from recognizing our weaknesses. Please take this as an opportunity to take pride in getting it right. You have it right, now keep it that way. Good job. Great team."

-Michael Williams

About TMR:

Technology Management Resources offers a wide range of automated payments processing solutions to financial institutions and businesses nationwide. Headquartered in Orlando, FL, TMR has 18 years of dedicated service to the payments industry. TMR's products include: CITATION™ e-Remit – image based lockbox, CITATION™ e>Returns – automated returns (NSF) re-presentment, CITATION™ e-Scan – full page image capture, CITATION™ i-View – Web based transaction document image and data delivery, and CITATION™ i-Deposit – remote merchant deposit. Each product is delivered in combination with TMR's comprehensive customer support.

"... take this as an opportunity to take pride in getting it right. You have it right, now keep it that way. Good job. Great team."
